

NEWS TRACKER APPLICATION

INTRODUCTION

Real-time news tracking is the process of getting the most recent news on a particular topic in real-time. Having fresh news delivered to you instantly seems like a great deal on the face of it. Here are some practical benefits that you can get from real-time news tracking. Just as you want to monitor the news about yourself, you should also be in the loop about competitor news. Whatever the press (or content creators, influencers, their clients, etc.) says about them is worth knowing.

LITERATURE SURVEY

we are taking a look at all the past attempts and implementations to the news tracker application or anything that is atleast vaguely related to it

S NO	TITLE	AUTHOR	DATE	TECHNIQUES	LINK FOR REFERENCE
<u>1</u>	Following the Fed with News Tracker	Michael William McCracken	January , 2012	The paper is not a technical paper but is essentially a statistical paper on how should one conclude whether the data have come in stronger, weaker or as expected. This is based on the CitiGroup U.S Economic Surprise Index	(PDF) Following the Fed with a News Tracker (researchgate.net)
<u>2</u>	An End to-end daily supervised news Framework	Xijin Tang, Xiaohui Huang	June, 2022	The framework combines Snorkel based weakly supervised classification, Latent Dirichlet Allocation (LDA) topic modeling,	An End-to-end Weakly-supervised News Aggregation Framework Request PDF (researchgate.net)

				and topic signal detection model to classify and aggregate unlabeled news texts and ultimately generate visualized results containing news categories, news topics, and temporal topic relationships.
